Appreciative Inquiry

Individuals reflect on significant past achievements in the organisations and identify factors that led to the success

Appreciative Inquiry Approach

Paired card exercise.

Participants are paired and each
one interviews the other.

Participants to reflect on the
organisational elements
that contributed to the
success and record this in
the card for each

Group Exercise:

- Participants divide into 3 groups
- Each group selects a facilitator and presenter
- Each group reflects on the card exercise
- Each group identifies desired capacities at organisational level
- Each group presents the findings

The World Cafe

Group interaction method focused on conversations.

People sit around a table and hold a series of conversational rounds lasting for 10 minutes about the specific questions posed.

At the end of each round, one person remains at each table as the host, while the others travel to separate tables.

Table hosts welcome newcomers to their tables and share the essence of that table's conversation so far.

The newcomers relate any conversational threads they are carrying -- and then the conversation continues, deepening as the round progresses.

Questions for World Cafe

Look at the 3 prioritised capacity development needs in each sheet (4 areas, one in each table) and develop a road map on strengthening these capacities
